AMENDMENTS TO THE SPECIFICATION

[0015] Although not shown in detail, it will be apparent that some panel assemblies adapted for mating with poles that carry power from the ceiling to electronic equipment therebelow, and/or carry data or telecommunication cabling as required. The same is true for bringing the power and data/telecommunication cables into a ceiling distribution system of the present invention. See U.S. Patent No: [[4,280,900]] 4,230,900 for example. Thus, panel assemblies of the present invention can be used for in-feed units as well as for feeding cables downwardly through conventional power poles. See for example those manufactured by the assignee herein under its TELEPOWER trademark.
